

Course Syllabus

Course Aims:

This course on Bible Prophecy is meant to serve the student as an INTRODUCTORY OVERVIEW of the major writing prophets: Isaiah, Jeremiah, & Ezekiel. It is designed around their books, giving the historical perspective of the Old Testament also, particularly in the times of the Jews.

The three prophetic programs revealed in Scripture outline the course of the **nations, Israel, and the church**. Daniel alone reveals the details of God's plan for Israel and the church, the remaining prophets speak primarily about Israel, judgment of the Gentile nations, coming Messiah, and the Millennium. All are essential to the structure of prophecy and provide the keys to the understanding the entire Old Testament prophetic revelation.
